Keeping It UP in January

The 'Keep It UP' is an initiative started by the Technical Staff of the Glen Shields Soccer Club to aid in the technical development of each player in the Red & Black Stripes.

Each month the Staff of each team will monitor the scores of each player who juggles the ball with any part of their body excluding their hands and arms without letting it hit the ground and document it. The team Staff will forward the results to the Technical Staff at the end of each month (Wednesday of the last week of the month). The Technical Staff will collate the results and publish them on the web for all players, coaches and the membership at large to view.

Each player within the Club will have their results posted after they achieve the 10 'Keep It UP' mark. It is clearly proven the more a player practices the higher the score. However, the ultimate purpose of the program is to improve each individuals FIRST TOUCH on the ball in order to achieve other goals they have established individually and/or as a team.

The monthly event will allow:

1. Individuals to compete against one another
2. Individuals to compete against both genders
3. Teams to compete against one another in the same gender
4. Teams competing against one another for Club Title (based on Team Avg.)
5. Individuals are competing to create a HIGH CLUB Average.

The competition will bring out a number of stats for all to compare each month.

January Statistics:

1. **1300** Top Male: **BU17R Emil. C**
2. **291** Top Female: **GU14R Gabby K.**
